WHAT TO EXPECT

Accompany me on this innovative and inspiring journey of discovery and adventure, where the words of Isak Dinesen (Karen Blixen) will ring true:

“ Here I am where I ought to be”

I want to share the wondrous charm of the Chobe river with you. Capture the essence of nature. Embrace the feeling of being submerged in this abundance, from elephants crossing the majestic waters to the iconic cry of the African Fish Eagle.

As we glide on a river that resembles a mirror, notice as the reflections change into expressionistic paintings set to the backdrop of a symphony of sounds of the awakening day. Through your own lens, realign, and rediscover your own peace and harmony.

Spend the last few days getting creative at the relaxing and tranquil Klipspringer Lodge, Selati private game reserve. While continuing your photography from the specialised photographic hide.

Re-emerge, rejuvenated and transformed through inspirational experiences and dreams under the African night skies.

Return home with more than precious memories. Your photographs and canvas artwork will be tangible and lifelong reminders of your footprints on African soil.

CHOBE **BOTSWANA**
